

Friday 5th February 2021

Dear Parents/Carers,

Next week we will be joining schools and youth organisations across the UK in celebrating **Safer Internet Day 2021**. Safer Internet Day is a global campaign to promote the safe and responsible use of technology, which calls on young people, parents, carers, teachers, social workers, law enforcement, companies, policymakers, and more to join together in helping to create a better internet.

Using the internet safely and positively is a key message that we promote in school and celebrating Safer Internet Day is a great opportunity for us to re-emphasise the online safety messages we deliver throughout the year.

We would be delighted if you could join us in celebrating the day by continuing the conversation at home.

To help you support your child with this, we will be sending home a Parent/Carer pack.

Some other resources which you may find helpful in supporting your child online are:

- Advice for parents and carers from [Childnet](#)
- Tips, advice and guides for parents and carers from the [UK Safer Internet Centre](#)
- Guides on popular apps and games from [NetAware](#)
- Reviews and information about games, apps, TV shows and websites from [Common Sense Media](#)
- Help on using parental controls and privacy settings from [Internet Matters](#)
- Information and reporting of online grooming or abuse from [CEOP](#)

Online safety is an important issue which as a school we're committed to teaching our students about.

If you have any concerns or questions about keeping your child safe online, please do get in touch with your child's class teacher or Adam Wadey, our Designated Safeguarding Lead.

Kind regards,

Simon Collins

What do I need to know about Safer Internet Day?

What is Safer Internet Day?

Safer Internet Day is on 9th February 2021. It's celebrated across the globe in over 170 countries, with thousands of young people joining in across the UK to explore how they can use the internet responsibly, respectfully, critically and creatively.

Safer Internet Day is a great opportunity to focus on online safety with your child – whether that's trying out some of the learning activities in this pack, asking about what they like to do online or using their favourite app or game with them. You could support the day on social media, tell other friends and family about the day, or ask your child for their best tips for staying safe online. Find out more here: saferinternetday.org.uk.

The theme for Safer Internet Day 2021 is...

An internet we **trust**
Exploring reliability in the online world

This year in the UK, Safer Internet Day explores reliability online. The campaign will focus on knowing what to trust online and the strategies that young people use to question, challenge and change the online world. The internet has an amazing range of information and opportunities online, and can help us see the world from different points of view. But how do we separate fact from fiction, the genuine from the misleading? How do we decide what to believe online, and what's the impact of dealing with fake content and experiences?

An internet we trust

Exploring reliability in the online world

Safer
Internet
Day 2021

UK Safer
Internet
Centre

How do I use this pack?

This pack for parents and carers includes information and activities to help you support your child in using the internet positively and safely.

This pack contains:

Conversation starters	Helpful questions and phrases to start a conversation with your child about staying safe online.
Family online safety plan	A plan to help your family shape the way you will use the internet and technology safely, responsibly and positively.
Family activities	Fun activities that you can do with children of all ages to explore trust and reliability online.
Show your support	Tips on how you can support Safer Internet Day both online and offline.
Parents' resource sheet	Useful sources of advice and information online, including how to report online problems.
What to trust online? A parents' guide	How to check the reliability of online content, and how to support your child to do the same. Includes a glossary of key words.

Have any questions?

Conversation starters

Safer Internet Day 2021 is a fantastic opportunity to have a conversation with your child around this year's theme, '**A internet we trust: exploring reliability in the online world.**'

Use the questions below to help you get started with discussions around how we can all use the internet safely, responsibly, and positively.

Start the conversation on a positive note:

- ? What do you like most about the internet and why? What's your favourite game/app/site?
- ? How does going online make you feel?
- ? How does the internet/technology make your life better?

Talk about sharing online:

- ? What is okay/not okay to share online? Why?
- ? What should we do before sharing things online?
- ? Can people say/do whatever they want online? Why/why not?
- ? What do we do if someone shares something about us that we don't like?
- ? How do you feel about your parents/carers sharing things about you online and vice versa?

An internet we trust

Exploring reliability in the online world

Safer
Internet
Day 2021

UK Safer
Internet
Centre

Talk about trust online:

- ? Can we trust everything we see online?
- ? Where do you go online to find trustworthy information?
- ? How do you know if you can trust something you are looking at online or not?
- ? What questions should we ask about things online before we trust them?
- ? What can you do if you see something online that you are not sure if you can trust or not?
- ? How much can you trust people you only know online? What is different about talking online to someone compared to talking face to face?

Talk about looking after yourself and others online:

- ? How do you stay safe online? What tips do you have and where did you learn them?
- ? Do you know where to go for help and where to find the safety tools on your favourite apps and games?
- ? What could you do if being online is making you feel worse rather than better?
- ? What could you do if someone was unkind to you online?
- ? What could you do if you saw a friend online needed some help or support?

Family activities

Here you'll find fun and engaging activities that parents and carers can do with children of all ages to support this year's Safer Internet Day theme:

'An internet we trust: exploring reliability in the online world.'

Work through these activities together to help your child question what they see online and make sense of the digital world. Find more activities to run with different ages in the Safer Internet Day Education Packs: saferinternet.org.uk/safer-internet-day/2021

All ages

Family Agreement

A family agreement is a great way to start a conversation about how your family uses the internet. As well as the online safety agreement in the Parents and Carers Pack, you can find a more detailed version here:

childnet.com/resources/family-agreement.

Safer Internet Day Films

Our Safer Internet Day films provide a great way to start a discussion with your child about how the internet makes them feel and what tips they have about finding reliable information online. There are different videos aimed at younger and older children here:

saferinternet.org.uk/films.

Ages 3-7

Top Tips for searching online

Discuss with your child: How do you stay safe when searching for something online?

You could write their suggestions down or just keep it as a discussion.

Read the story 'Detective Digiduck!' here:

childnet.com/detective-digiduck.

Discuss together what Wise_Owl tells Digiduck to do when they are feeling unsure about something online.

Work with your child to create a 'Top Tips for Searching Online' poster, using Wise_Owl's advice from the story. Your child could put Wise_Owl's advice into a song or poem and record this to create a video to show other family members!

Smartie the Penguin story

Read the Smartie the Penguin story that includes unreliable information here:

childnet.com/resources/smartie-the-penguin

Join in with Mummy Penguin's song and follow the adventures of Smartie the Penguin as he learns how to be safe on the internet.

Ages 7-11

Internet Detectives

Print the 'Detective' sheet below or ask your child to design their own version.

Work with your child to become a detective to see how many of the activities they can complete on their card. When your child experiences or carries out an online action on the sheet, they can cross it off/colour it in.

Detective		
	Name _____	
Find a fact you didn't know before (Remember to make sure it's reliable!)	Think about how being online is making you feel and tell someone you trust	Check 3 sources to see if something is reliable/true
Find an article or video online where a person is giving their opinion	Share something useful online to friends/family	Use a search engine and spot the sponsored results
Laugh out loud at something online	Find an image which has been edited	Spend some time researching a topic you're interested in with an adult you trust

Childnet Primary Pages

Work through this series of interactive quizzes with your child to help you talk about how to stay safe online and what to do if things go wrong. Aimed at children aged 8-12, the quizzes include topics such as online gaming, social media and sharing things online:

childnet.com/young-people/primary/get-answers.

An internet we trust

Exploring reliability in the online world

Safer
Internet
Day 2021

UK Safer
Internet
Centre

Ages 7-11

Childnet SMART Video Lessons

Watch this series of 6 mini video lessons hosted by the Childnet Education Team together with your child. You'll be guided through activities and discussions about different online safety topics. The sessions are aimed at children aged 6-9 and can be found here:

childnet.com/resources/video-lessons.

Ages 11-14

Search and You Shall Find

Discuss with your child how reliable online searches are. Online searches have improved a lot since they first started, and your device will use what it knows about you and your interests to show what it thinks are the best results for you.

By comparing the same search, will you and your child see variations or differences in the search results?

To test this out, agree on one search engine to use like Bing, Google or Duck Duck Go.

Try out the same search terms such as: 'world's fastest animal,' 'jeans,' 'TV shows,' or 'music.'

Compare what your device and your child's device show you. Look for adverts or websites that come high in the search results or appear on the page too. This could be an opportunity to review any parental controls or filters on your home internet connection too.

Review what you found.

How well do your devices know you? What does this tell us about the trustworthiness of online information?

An internet we trust

Exploring reliability in the online world

Safer
Internet
Day 2021

UK Safer
Internet
Centre

Ages 11-14

Childnet Secondary Hub

Explore the Secondary Advice Hub with your child, showing them the advice and information about different online safety topics. Use this as a conversation starter to ask them about their online life and let them know they can also come to you with any questions: childnet.com/young-people/secondary.

Ages 14-18

Screenshot It

Ask your teen to screenshot three things that they have seen online that were suspicious or unreliable. This could be done over a week or just a day. You could do the same and compare with your child later.

Together, review the three examples you both find.

Discuss where, when, and how you came across your examples. How does your child feel about seeing this content online? Do they ever do anything about it and how does it make them feel? Find out how to report different types of unreliable or inappropriate content or contact here: childnet.com/resources/how-to-make-a-report.

Be a role model

Why not ask your teen to help you, or their younger siblings, to spot the signs of unreliable information online? They no doubt have some online wisdom to share. Ask them where they go for reliable information, and if there are different things that should be checked on different platforms. For example, does untrustworthy information look the same on Twitter versus TikTok?

The _____ family online safety plan

Look around your home. Search for all the devices which connect to the internet and record here:

We have devices which connect to the internet in our home.

It's time to talk

How do we use the internet as a family? (e.g for entertainment, for research...)

How can we keep our family safe and happy online?

What can we use our devices for?

What can't we use our devices for?

Where will we keep our devices?

When can we use our devices?

What should we do if something worries, upsets or confuses us online?

Parents and Carers Resource Sheet

This sheet provides parents and carers with useful sources of advice and information, both for general online safety and in particular, for this year's Safer Internet Day theme of 'An internet we trust: exploring reliability in the online world.' It also includes information on how to report online problems.

The UK Safer Internet Centre partnership:

UK Safer Internet Centre (UKSIC)

The UKSIC co-ordinates Safer Internet Day in the UK. Appointed by the European Commission, the UKSIC is made up of three partners: Childnet International, the South West Grid for Learning and the Internet Watch Foundation. We raise awareness about online safety, develop resources and organise nationwide events such as Safer Internet Day: saferinternet.org.uk/parents.

Childnet

A non-profit organisation working to help make the internet a great and safe place for children. The Childnet website has lots of resources for young people, parents, carers and teachers. The Parents and Carers page contains a family agreement, advice on talking to your child about online issues and further places to go for help: childnet.com.

Internet Watch Foundation (IWF)

The UK's hotline for reporting illegal content found online. The IWF deals specifically with child abuse and criminally obscene images hosted in the UK and internationally. The IWF works in partnership with the online industry, law enforcement, government and international partners. It is a charity and a self-regulatory body with over 100 Members from the online industry: iwf.org.uk.

South West Grid for Learning (SWGfL)

A not for profit, charitable trust dedicated to the advancement of education through information and communication technologies. Provides professionals, parents and children with advice, resources and support to use internet technologies safely to enhance learning and maximise potential: swgfl.org.uk.

An internet we trust

Exploring reliability in the online world

Safer Internet Day 2021

Useful information and organisations

UK Safer Internet Centre (UKSIC)

As well as resources and information about Safer Internet Day, the UKSIC produces weekly blogs which offer advice on a range of topics that reflect current and emerging trends as well as questions received during training sessions.

Media Smart – Parents & Guardians

Guides and resources to help parents play a key role in supporting young people to understand the key features of digital advertising: mediasmart.uk.com/parents/.

Common Sense Media – News and Media Literacy

Advice, articles and videos for parents and carers to help their child think critically, resist advertising pressure and become smart consumers: commonsensemedia.org/news-and-media-literacy.

Full Fact

The UK's independent fact checking charity. Provides free tools, information, and advice so that anyone can check the claims made by politicians and the media: fullfact.org/.

Online safety information for parents and carers

Let's talk about life online

Advice for parents and carers on how to talk with their child about staying happy, positive and safe when online: childnet.com/resources/lets-talk-about-life-online.

Critical Thinking key topic

Advice for parents and carers for supporting children of different ages to recognise unreliable information online: childnet.com/parents-and-carers/hot-topics/critical-thinking.

Information and Advice for Foster Carers/Adoptive Parents

Free, printable leaflets with top tips and conversation starters to help foster carers and adoptive parents support their child to use the internet safely: saferinternet.org.uk/fostering-adoption.

Keeping Under Fives Safe Online

Top tips for parents and carers for keeping children aged five and under safe in different online areas, such as videos and games:

[childnet.com/resources/keeping-under-fives-safe-online](https://www.childnet.com/resources/keeping-under-fives-safe-online).

Where to report and get help

UK Safer Internet Centre – Need help?

Advice on what to do if a child comes to you for help and how to report online concerns such as cyberbullying, inappropriate content or illegal behaviour: saferinternet.org.uk/need-help.

Report Harmful Content

Provided by the UKSIC. Gives advice on how to report online problems, offers help in removing harmful content from platforms and supports with reports that need to be escalated: reportharmfulcontent.com.

Internet Watch Foundation (IWF)

The UK's reporting hotline for illegal content found on the internet. The IWF specifically deals with child sexual abuse and criminally obscene images hosted in the UK and internationally: iwf.org.uk.

Child Exploitation and Online Protection (CEOP)

A police agency tackling child sexual abuse and grooming online. Parents and young people can make reports of grooming or child sexual abuse online at: ceop.police.uk. CEOP's Think U Know website contains information for children and parents, as well as a link for children to report sexual abuse or grooming online: thinkuknow.co.uk.

Action Fraud

The UK's national reporting centre for fraud and cybercrime. Make a report of fraud if you have been scammed, defrauded or experienced cybercrime: actionfraud.police.uk/.

Show your support

#SaferInternetDay #AnInternetWeTrust

Safer Internet Day provides a fantastic opportunity to keep up to date with young people's online lives and be part of a bigger conversation about staying safe online. Here, you'll find ways you can support this year's theme, '**An internet we trust: exploring reliability in the online world.**'

Last year's Safer Internet Day was the biggest yet, reaching more young people, parents, carers, and teachers than ever before! Help the UK Safer Internet Centre reach even more this year.

There are lots of ways that you and your family can get involved in the day and spread the word in making the internet a safe and positive place to be.

Get involved

Safer Internet Day is celebrated in over 170 countries worldwide. Be a part of this global conversation by using your social media to help promote the amazing things that are happening.

Use these hashtags to help spread the message online:

#SaferInternetDay
#AnInternetWeTrust

The UK Safer Internet Centre will be posting lots online safety advice in the run-up to the day and on the day itself. We will reshare lots of messages and advice from others celebrating the day across the UK.

Follow us, or let us know how you are celebrating the day, using our social media accounts:

Instagram: @UK_SIC

Twitter: @UK_SIC

Facebook: saferinternetuk

YouTube: UKSIC

What to trust online? A Parents and Carers Guide

This sheet aims to give you the confidence and understanding to discuss this year's Safer Internet Day theme, '**An internet we trust: exploring reliability in an online world**' with your child.

Some young people will know false and misleading content exists online but some may be new to the idea that you can't trust everything you see on the internet. Regular discussion can help them to develop the habit of questioning and evaluating what they see online.

How are children and young people experiencing false or misleading content online?

Some examples are below, but the best expert on this is your child themselves! Ask your child what they like to do online and where they go to find things out to help start this conversation.

An internet we trust

Exploring reliability in the online world

Safer
Internet
Day 2021

UK Safer
Internet
Centre

What are the risks of false or misleading online content?

These vary depending on the motive and the context. Risks posed by false or misleading content online might include:

- Creating fear/anger/panic
- Spending money on products sold under false pretences
- Public opinion affected by inaccurate information
- Personal harm or injury e.g. fake weight loss claims
- Physical damage e.g. inaccurate instructions to fix a broken phone screen
- Negative impact on well-being e.g. feeling targeted or powerless

How do you fact-check online content?

If you see something confusing, suspicious, alarming, or even too good to be true online, the tips below can help you decide whether you can trust it or not.

- Consider the source** Where/who has this information come from and do we have reason to trust it? (E.g. An advert will always want to make the product being sold sound good to convince us to buy it!)
- Consider the motive** Why is this information online? Is someone getting paid to post it, or trying to influence public opinion? (E.g. A political campaign will always want to make it sound like their candidate is the best choice!)
- Consider your own knowledge** What do you know about this already? Does what you see online say the same or something different? Do you know enough to decide whether to trust it? If not, then more research is needed.
- Check several sources** Check another website, watch another video or read a different article. The more sources that say the same thing, and the more reliable those sources, the more likely it is that the information can be trusted.
- What are other people saying?** Reach out to friends or family members to get a second opinion. What are others are saying online in comments, reviews, or ratings? Remember, there is a chance these could be influenced by financial or personal gain too.
- Use a fact-check website** There are independent organisations out there who find, uncover and counter any false or misleading claims going around online. In the UK, this is fullfact.org.
- Take action** The last thing we want to do is spread inaccurate information further. Consider reporting it, or letting friends and family know it can't be trusted. Maybe leave a comment, but don't share it on!

How can I support my child in recognising false or misleading content?

Talk together

Talk regularly with your child about how they use technology and where they go for information online. Discuss who they follow, what types of adverts they see and what stories they find surprising or suspicious. Listening to your child will give you the best possible idea of how you can support them. Not sure where to begin? Have a look at our suggested 'Conversation starters' for parents and carers.

Set an example

If you come across a fake news story, or get sent a phishing email, discuss with your child how you spotted it and what you did. Why not ask them for a second opinion? Your child may have already heard about it or seen something similar, and if not, it's a learning opportunity for both of you. Seeing a parent actively question and evaluate online content teaches young people the importance of doing the same.

Think before you share

It can be tempting to share surprising or attention-grabbing online content with your child or your family group chats, but make sure to fact-check these links before you do. As it's come from a parent, some children may believe it without questioning it, and older children may find it difficult or awkward to point out if it is false or misleading. This is another chance to set a good example in how to share information responsibly online.

Check in with your child

False and misleading content online can be upsetting and confusing, e.g. harmful claims that target specific groups, or unhealthy lifestyle tips. Young people may feel powerless when faced with the amount of unreliable content they see. Regularly check in with your child about their online life and ask them how what they see makes them feel. This is an issue that affects all of us. Reassure your child that you are there to talk about things that upset them and to support them with how they feel.

Seek help and support

Just as we ask young people to talk about what they are unsure of, make sure you do too! Chances are that you'll find other parents or carers who are trying to figure out how to help their family avoid false information and get the most out of the internet.

Find out how to get more support by visiting Childnet's 'Need Help?' page. You can take steps to support your child online by using features such as making a report on a range of apps, games and services, and using privacy settings on social media.

For more advice, visit Childnet's key advice for parents and carers here:

childnet.com/parents-and-carers/hot-topics/critical-thinking

Glossary

- ▶ **Clickbait** Text or images designed to catch the attention of the viewer and encourage them to click it.
Owners of pages with clickbait get paid from advertisers based on the number of clicks/views.
- ▶ **Conspiracy theories** Often spread unofficially through social media channels or online discussion forums, popular conspiracy theories often suggest powerful people and organisations are involved in secret plots supposedly behind real-world events.
- ▶ **Disinformation** Inaccurate information shared on purpose to confuse, mislead or influence.
- ▶ **Edited images and videos** When photos and videos are changed using online software (e.g. to make them look more 'impressive', to create a more finished product, or even to change their meaning).
- ▶ **Fake news** A form of news involving inaccurate information that might be shared on purpose or by mistake.
This term is now used by many people in lots of different ways, for anything online thought to be false, misleading, or inaccurate.
- ▶ **Influencer** Someone who recommends or promotes items or services on their social media accounts to their (usually) large number of followers.
- ▶ **Misinformation** Inaccurate information shared by accident that could confuse, mislead or influence.
- ▶ **'Perfect' profiles and lifestyles** When online users present their lives online in a way that could be highly desirable by others. This may or may not be an accurate representation of their true lives.
- ▶ **Scams and phishing** Attempts to steal login or bank details using fake emails or messages that appear official, e.g. an email that looks as if it is from your bank asking you to submit your account details for verification.
- ▶ **Sponsored content** Online content which an advertiser has paid to appear. Often designed to look 'natural' or 'real'. Usually associated with social media influencers.
- ▶ **Targeted advertising** Advertising that is aimed at you based on both your online activity and your identity (e.g. gender, age, location, ethnicity, etc.)

7 Top Tips for Supporting Children to EXPRESS THEMSELVES SAFELY ONLINE

The past year has left many children feeling uncertain and worried. So Children's Mental Health Week 2021 has adopted the theme of 'express yourself'. It's not necessarily about being the best – but instead encouraging young people to relish the joy of being 'in the moment' and loving what they do. So whether they're into music, art, photography, film, drama or dance, here are our top tips for helping your child to express themselves safely online.

1 Celebrate their Identity

Celebrating who children are and reminding them of their uniqueness has a huge impact on their confidence and self-esteem. This week, remind them of what you love about them. You could revisit some photos and videos on your phone or computer of special times you've shared. Chat about the importance of finding time to do what they love: underline that it's an important part of who they are.

2 Promote Their Passions

It's different for all of us, but every child has something which ignites their passions and brings them joy. Perhaps they love music and you could introduce them to a music-making app? Or if they enjoy taking photos or making videos, use this week to set a photography or video competition at home, with some fun categories.

3 Support Their Interests

Some children seem to know instinctively what interests them and what they enjoy doing; others can be less decisive about hobbies. Spend some time this week sharing their interests and doing something connected to it together. You could make a short Lego film to post on your Instagram, a vlog about baking that you share with relatives, or just play with them on their favourite video game.

4 Help Them Help Others

Some children love to express themselves through activities which help others. Perhaps your local area's Facebook group has a community project that your family could get involved with – even as a one-off; it doesn't have to be a long-term commitment. Depending on your child's age, you could introduce them to online fundraising (such as sites like JustGiving, for example) and how it can make a difference to less fortunate people.

5 Enable Emotional Expression

Children sometimes need help in articulating how they're feeling and in beginning to understand how to manage their emotions. A safe, healthy way for your child to explore their feelings is to let them conduct an activity – like listening to a story, or creating some art – and discuss with them afterwards how it made them feel. There are lots of stories available on YouTube, while Audible is streaming children's audiobooks free of charge while schools are closed. YouTube also has a plethora of fun art tutorials (if you log in on adult's account, remember to adjust your settings first to block inappropriate content and stop potentially unsuitable material auto-playing).

6 Let Them Stay Connected

The online world is a fantastic space for staying in contact with those who we can't be with right now. Young people are often very comfortable using social media to express themselves and stay connected by sharing their ideas, thoughts and feelings with friends. But bear in mind that most social media platforms require a child to be at least 13 before they should access it (WhatsApp is 16). Remind your child that, while it's OK to express who we are on social media, they should still always think before posting – and that their self-worth is never measured by their number of likes, friends or followers.

7 Coach 'Safe Sharing'

As part of expressing themselves, your child may want to share something online that they've created – like a funny video, a sketch, a meme or a dance. If they're too young to have their own social media, you could use your own account to share it with selected people who you trust. Emphasise the importance of only sharing content with people that your child knows well, like family and friends. This type of conversation is also useful for introducing young people to the risks and challenges that can come when expressing ourselves to a wider online audience of strangers.

Meet Our Expert

Anna Bateman is passionate about placing prevention at the heart of every school, integrating mental wellbeing within the curriculum, school culture and systems. She is also a member of the advisory group for the Department for Education, advising them on their mental health green paper.

About Children's Mental Health Week

Around three children in every primary school class has a mental health problem. Many more struggle with challenges from bullying to bereavement. Now in its seventh year, Children's Mental Health Week shines a spotlight on the importance of young people's mental health – and it's never seemed more relevant than it does in 2021.
